Man of Integrity

BESPOKE TAILORING

STYLE & INNOVATION FOR AN EXCELLENCE...

SHIRTS, That Defines You...

Founded by Mr. Sajid Shaikh, Italian luxury suiting brand has been a cult favourite when it comes to sharp, flattering men's tailoring. A family-run business to date with the third generation, currently handling the reigns of the company.

Tailoring brand rose to fame with the emergence of a clean, modern style of menswear, the brand has earned the respect of the discerning gentlemen with its high-quality fabrics, tailored fit, and attention to detail.

SAJID SHARIF SHAIKH
Chairman & MD

The transformation journey at Milliner is conceptualised to create a new-age organisation that is geared to outpace competitors and drive higher growth & profitability.

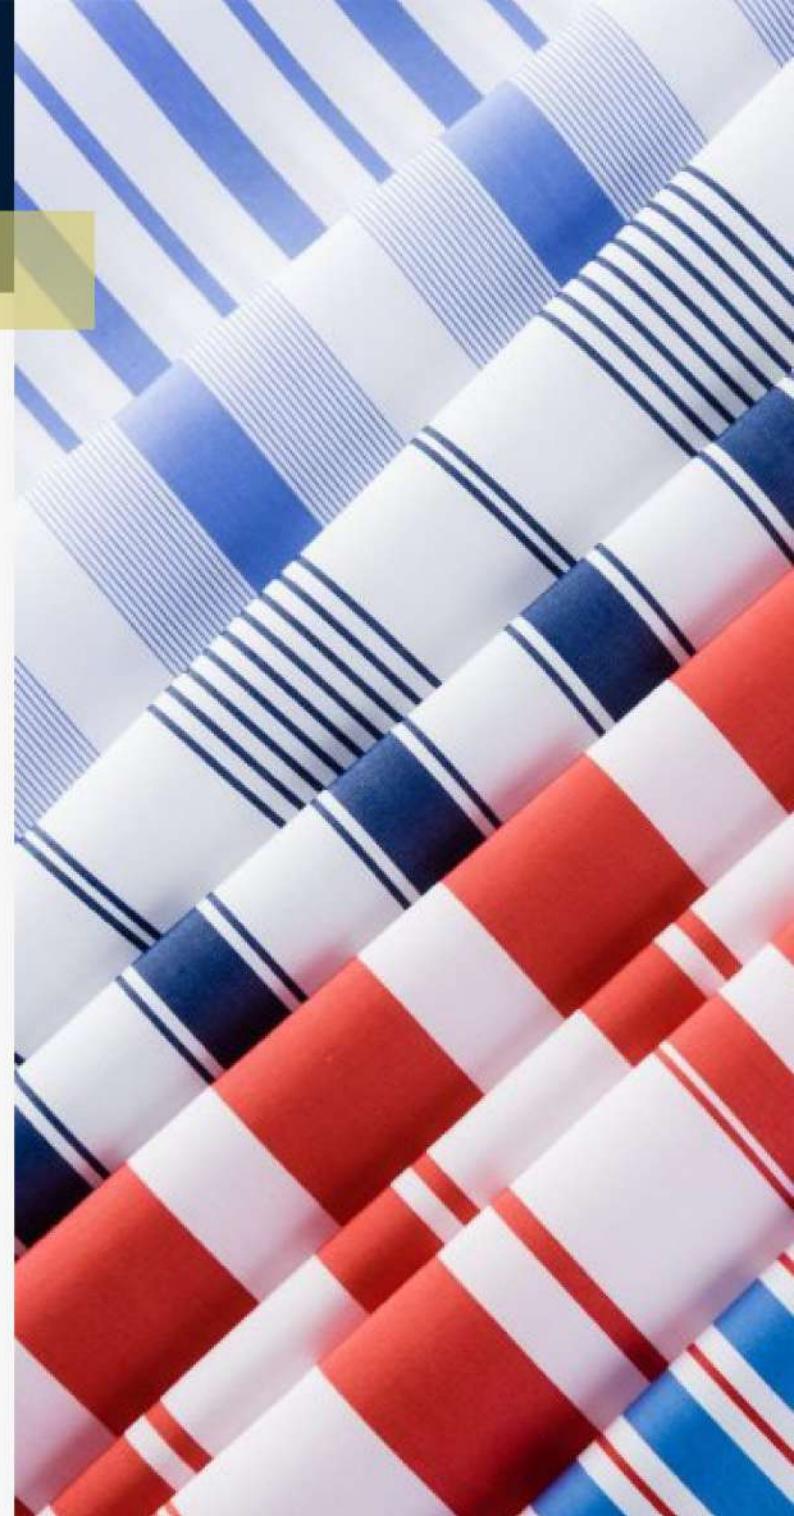

An unmistakable style, harmony of colours and graphics, analysis and interpretation of International trends in line with the tradition of individual brands give rise to a uniquely varied and sophisticated offer. Yarn-dyed fabrics and also many piece-dyed fabrics, available in a wide range of colours and bases. The constant research into quality raw materials, the introduction of new yarns and new dyeing and weaving techniques, finishing and extraordinary performance are the foundation on which the group collections are created. Through the different souls of its brands, the Milliner offers its customers collections that range from the sportiest or contemporary taste to the more classic and sartorial. Fabrics that represent the shirt that everybody should have in their wardrobe to the most precious and exclusive fabrics in the world.

International Trends

Plays on structures make the woven structure fabrics particularly unique: In addition to the colour and design, the structure allows you to add three dimensionality and give movement to the fabric, creating patterning both beautiful and unexpected, through skillful movements in the loom.

The precious two-fold fabrics are characterized by an extraordinary resistance, increased brightness of the color and very high resolution of patterning.

Soft and crisp, the poplins are always refined and suitable for both office or for a formal evening. With the poplin fabrics, made with twice the number of warp yarns with respect to the weft, they can be made into bright and resistant shirts. The compact weave makes them the ideal base for designs that extremely vivid and bright.

The stretch fabrics are surprising for their compactness and brightness and ensure a perfect fit and high comfort. Particularly innovative is the Natural Comfort whose secret lies in an innovative treatment that gives natural elasticity to the fabric, without the use of synthetic components.

Plays On Structures

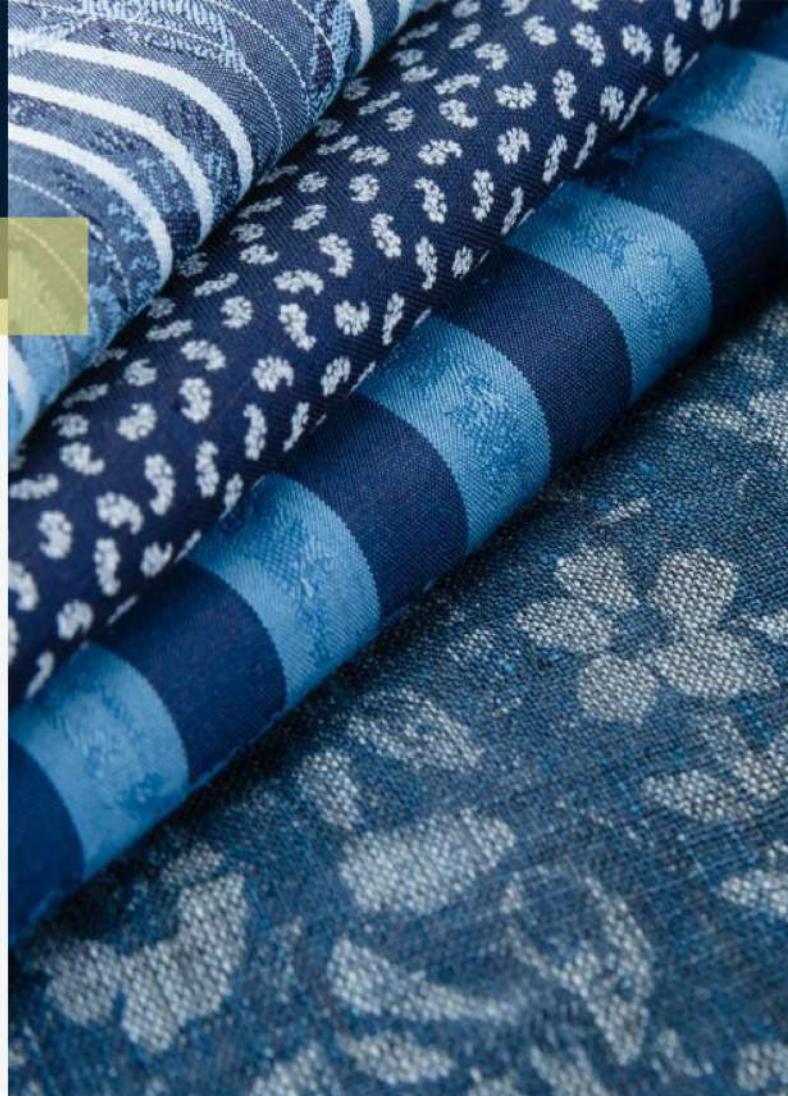

Prints, creative and fashionable, are created with cutting-edge techniques, impressing with their strong visual impact and for the definition of colour and designs.

In the offer of Milliner not to forget also the voile and muslin, light and fluid fabrics, made with fine yarns, perfect for a summer shirt.

Milliner has reinterpreted the denim in all styles, from classic to sporty and fashion and has combined their knowledge of fabrics for shirts to the typical characteristics of indigo yarn, capable of making every single garment made. The result is a proposal for plains and patterns, unique in terms of quality, structures and pattern, characterised by the presence of fabrics in indigo two-fold yarns, from the finest to the most substantial weights.

Classic to
Sporty

The fine woven linen is present with a thousand aspects, wefts and original hand-feels, compact or with games of transparency. The color palette ranges from the most neutral and natural tones to more vivid brilliant tones. The proposal is enhanced by wash-fading fabrics that combine the natural movement of the fabric with color tones that are transformed over time. The content is enriched with cotton-linen blends, linen-silk, linen-indigo through to linen flannels.

Original
Hand-Feels

Piumino Feeling

A true excellence

Always refined and elegant, the silky Piumino Feeling is realised with most subtle single-fold threads made with precious Egyptian cotton.

Linen

100% Made in Europe

Linen gives body to the creativity of designers: a raw material with a strong personality that allows a wide range of stylistic experimentations.

Stretch

Elasticity that endures over time

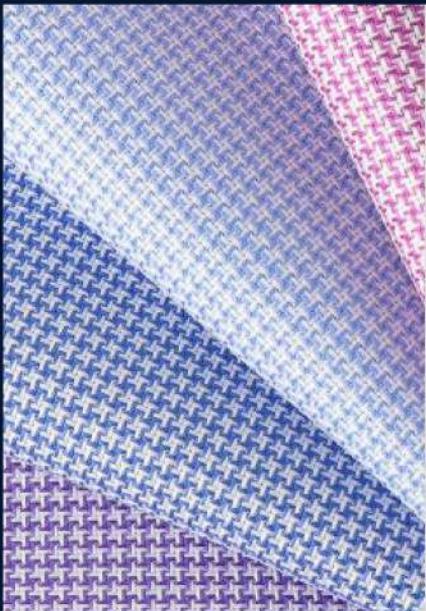

From the creativity and innovation are created particularly compact and luminous stretch fabrics that guarantee a perfect fit for a dynamic, contemporary lifestyle.

Print

Pure creativity

From sophisticated micro-design to large colored designs, the prints are distinguished for creativity, colour usage, and the great research that every season is made on the quality bases.

Weave Structures

Precious plays of structures

The constructions are the fruit of great research, innovation, and the textile, who create fabrics with three-dimensional effects thanks to avant-garde techniques of warping and weaving.

Flannel

Soft and always elegant

From the finest to the most colourful, from the lightest to the heaviest weights, the flannels are always warm and soft to the touch for a style that is sometimes elegant, sometimes sporty.

Super Light Weights

Summery and fresh

The offer include voiles and muslin, fluid and lightweight fabrics with a timeless elegance.

Special Yarns

Creativity and know-how

Long research and experimentation has allowed to propose more and more precious and special yarns within its fabric collections.

Natural Comfort

Natural soul, high comfort

Precious and exclusively natural raw materials such as cotton and linen, and also Tencel®, are innovatively treated, to create Natural Comfort fabrics.

TENCEL®

Refined comfort

Thanks to the natural structure of TENCEL® fibre, smooth and voluminous, the fabrics are particularly soft on the skin, giving a feeling of comfort.

ECOTone

Sustainability and quality

Respect for the environment and Made in Italy style, ECOTone is a shirt fabric made of the highest quality organic cotton.

Super Bazin Riche

African luxury

The use of the very best Egyptian cotton, with its long and flexible fibre, unites with the advanced technology of production facilities and the expertise of the Group's technicians. The result is an excellent quality fabric for the African market.
